ABOUT ME

I am freshly graduated from RBK bootcamp. Passioned about the IT field, I really love challenges and I am a self-motivated person. Fun fact: ... I am a software developer that does not wear glasses

PROJECTS

GaryWork |

📅 03 2021 – 04 2021

It is a fullstack application displayed as a platform to facilitate the communication between users and service providers whom provides non digitalized services.

- I've been the scrum master for my team during this project.
- During this project I learned Socket.io, Swillo, and Cloudinary.
- Created Sign in Sign up front and back, the design and the functionality for the profiles, the design of the landing page and the appointments section.
- Technologies: Angular10/Express/Mongoose/JWT/Socket.io/Cloudinary

Front End Capstone |

📅 03 2021 – 03 2021

A group work project that lasted for two weeks, which is the detail page of a product for amazon.

- We worked with the scrum methodology and I've been a product owner during this project.
- We worked with the SOA (Service-Oriented Architecture).
- We delivered the exact design as the client asked for.
- Technologies: React/Express

TyreBox |

📅 03 2021 – 03 2021

It is a platform that provides visibility to Tyre making companies to post and to sell their products there.

- We worked with the scrum methodology.
- I learned authentication during this project.
- I started learning Github workflow during this project.
- Technologies: React/Express/MySQL/JWT

EDUCATION

RBK ReBootKamp | training bootcamp

📅 09 2020 – 04 2021

📍 Ariana, Tunisia
